One Column,

Talking at noon with a mechanic in the shop, as he was eating his dinner, a cor-respondent of the Providence Press called out from the manly but modest veteran of the tin pail brigade this revelation of personal experience, which may have its hint for some of his comrades:

"Why, sir, what hinders ninety-nine out of every hundred of our laboring classes from increasing in substantial intelligence,

For instance, why shoulp not a large pro-portion of the half hundred mechanics emportion of the half hundred mechanics employed in this shop know all the histories of Prussia and France, and be conversant with the geography of the country where this great war is raging, so as to correct the blunders you editors often make? And in science and arts, what hinders the mechanic from being booked up? in everything going? Nothing, sir, but himself. And in science and arts, what hinders the mechanic from being "booked up" in everything going? Nothing, sir, but himself. Books are cheap, newspapers are cheap, courses of lectures are cheap. I have one little room in my cottage which my wife calls 'the library,'—for that seems so grand, you know—but I call it my 'snuggery.' In it I have between two or three hundred volumes of books, which it has taken me years to gather. I have kept trash off the shelves for my children's sake, as well as my own. But there is one part of my snuggery I take pride in. If you will come and see me I will show it to you. I have one row of shelves, labeled in this

I think two bushels not too much seed for an acre; and it must be cut early, before it is in full bloom, to have the hay of the best quality. The dressing should be spread immediately after removing the hay, and should be well brushed down; then the new crop will come up, and in a very few days cover the ground and keep it from dying. I would recommend it to any who is not afraid to begin haying the last of May or the first of June. By the 10th of June it is in full bloom in this latitude, and past its best condition for hay. Dr. Rapway—I have had Ovarian Tumer in the ovaries and bowels. All the doctors said "there was no help for it." I tried everything that was recommended, but nothing helped me. I saw your Resolvent, and thought I would try it, but had no faith in it, because I had suffered for twelve years. I took six bottles of the Resolvent, one box of Radways Pills, and used two bottles of your Ready Relief; and there is not a sign of a Tumer to be seen of felt, and I feel better, smarter and happier than I have for twelve years. FARMERS, SAVE YOUR STOCK BOWLUS'

AND LINIMENT.

It is warranted to remove Lice, Ticks, Fleas, and every other kind of Verness from Hogs, Catale, Sheep, Herres and Fowle. This is the only remedy that will kill Verness without injury to the Stock. It is perfectly harmless to the skin. It will not remove the hair, like many of the worthless articles now used. There is not a farmer but what loses Stock enough in one year, by the effects of Lice, Ticks, &c., to support their families. A few bottles of In one year, by the effects of Lice, Ticks, &c., to support their families. A few bottles of

BOWLUS' STOCK VERMIN EXTERMINATOR

would save them hundreds of dollars worth of Stock every year. It is just as easy to keep Stock free from Vermin as to keep them lousy, and it only requires one-half of the feed to keep Stock that are free from Vermin that it does those that are lousy. Keep your Hogs and Fowls free from lice, and you will suffer no loss from the effects of Cholers. We have the highest proofs of its suparior effects. It is, in fact, a life preserver to all kinds of Stock and Fowls.

Every farmer should keep a stock of the Vermin Exterminator on hand, so as to use it whenever necessary, and thereby save his Stock. It should be used by every sheep raiser on his sheep. It will destroy all the lice and provent the sheep from losing their wool. It keeps horses free from dandred, and exterminates all lice, and leaves the hair smooth and glossy. It should be used on all milk cows frequently, so as to keep them free from Lice and Tloks, as they create a fever, and the fever dries up the milk and soon turns into more fatal diseases. As a Stock Limitment it has no superior for Secony, Spraine, Stife, Scratche, Wounde, &c.

It is the Beast Limitment for the Humann Flesh that was ever offered to the public for RHEUMATISM, SPARISM, CUTS, BURNS, SORE THROAT, &c.

It is an Invaluable Remedy for Iron, and offeringly destroys BED-BUGS.

We claim for the VERMIN EXTERNIATION that it is a sure and safe remedy for what is above mentioned. Every bottle is warranted to do all that is claimed for it to do, or the money refunded. It is kept for sale by every merchant and druggist.

Weaver's Medicines

THESE INVALUABLE MEDICINES HAVE achieved a COMPLETE TRIUMPH in eradicating Humors, of all kinds, from the Human system. They were introduced to the public some libyears since, and have been used with entire success. The CANCER and SALTRHEUM YRUP is taken internally, which cleanses the Blood, by threwing impurities to the surface, when the CERATE is applied, externally, and all cruptions are destroyed, and Health and Besuty restored. Their ASTONISHING SUCLESS has called out many ignorant pretenders, who have introduced their wonderful preparations to the public. Thay are out in almost every form, from Panaceas down to Pills, and all for Humors, (of course they are).

But it has been reserved to Dn. Weavers' Syrup and CERATE to achieve what (under the circumstances) may be regarded as the most brilliant triumph yet achieved by any medicine ever introduced to the American public. Why is this? Simply because they perform what they promise; and notwithstanding the introduction of these new and wonderful preparations to the public, the SALT RHEUM SYRUP and CERATE keep st adily on their way, conquering as they go. If they public wish to try these new preparations, we have not a word to say, for they have a SURE REMEDY to fall back upon—viz. Dr. Weaver's Cancer and Salt Rheum Syrup and Cerate. Of this fact the public are well aware, for thousands, in all sections of the country, have been cured by them, after all other remedies have failed.
